

CONTOSO GLOBAL - DELEGATION OF AUTHORITY (SIGNATURE MATRIX)

Owner: Office of the General Counsel + Finance - Classification: Internal

This matrix defines who may approve and sign contractual commitments on behalf of Contoso Global. It complements the Contracting Policy approval thresholds and is used by the agents to route approvals; agents never sign.

DOA-1 - Signature authority by total contract value (TCV)

TCV band	Business approver	Legal approver	Signatory
< USD 50,000	Procurement manager	Not required (standard template)	Procurement director
USD 50,000 - 250,000	Department VP	Legal counsel	VP, Procurement
USD 250,000 - 1,000,000	Business unit SVP	General Counsel	CFO or delegate
> USD 1,000,000	CEO staff	General Counsel	CEO or CFO

DOA-2 - Clause-triggered escalation

Regardless of value, any contract containing a **non-negotiable** deviation (governing law outside US/UK, uncapped liability, or perpetual confidentiality) escalates to the **General Counsel** for sign-off.

DOA-3 - Renewals and amendments

Amendments and renewals follow the same bands based on the **incremental** value. An auto-renewal that increases annual value by more than 15% requires re-approval at the appropriate band.

DOA-4 - Segregation of duties

The business approver, legal approver, and signatory must be **three different people**. All approvals are recorded in the CLM system and are auditable.
